## Personal Evaluation

I am a full-stack developer focused on JavaScript frameworks like React, Vue.js, and Node.js. Also excels at working with other dynamic programming languages such as Python, Ruby, and Go and building mobile apps with React Native and Unity.

Passionate about learning cutting-edge technologies and solving challenges, finding opportunities to work within agile remote teams for startups and enterprises. In addition, to stay competitive in new technologies at all times by upgrading skills and knowledge thereby enhancing competence and excellence at work.

## Work Experience
